7 Scientific Sessions Organized by ILSI

- **Aging Gracefully: Staying Healthy & Well Late into Life**
  - 16 October 2017, 08:00–10:00, Room 4
  - What can we learn from different geographic regions about enhancing wellness as we age?

- **The Human Microbiome: Sharing Our Bodies**
  - 17 October 2017, 08:00–10:00, Room 6
  - Explore this exciting field of research with experts from Asia, Europe, and Latin America.

- **Lowcalorie Sweeteners: Update on Health & Safety**
  - 17 October 2017, 11:30–13:30, Room 5
  - Are low-calorie sweeteners safe and do they help achieve weight goals?

- **Physical Activity & Health: New Knowledge in Research & Technologies**
  - 18 October 2017, 08:00–10:00, Room 1
  - Can technology help individualize health regimens?

- **Advancement of Global Food Composition Databases**
  - 18 October 2017, 11:30–13:30, Room 9
  - Learn how composition databases are critical for achieving nutrition and health goals.

- **Sodium Reduction & Considerations with Mineral Intakes**
  - 19 October 2017, 08:00–10:00, Room 12
  - What are the opportunities and challenges to reducing sodium intakes?

- **Understanding Dietary Patterns: A Step toward Devising a Global Nutrition Strategy**
  - 20 October 2017, 08:00–10:00, Room 8
  - Explore how existing methods and data can be used to make accurate dietary pattern comparisons across diverse populations.
