Sergio Paniagua-Barrantes, PhD,
Researcher, National Laboratory of Nanotechnology

Sergio Paniagua-Barrantes is a Researcher at the National Laboratory of Nanotechnology (LANOTEC), Costa Rica and a Chemistry Lecturer at the University of Costa Rica, West Campus. In 2013, he earned a Ph.D. at the School of Chemistry, Georgia Institute of Technology where he wrote his thesis “Interfacial engineering of transparent electrodes and nanoparticles with phosphonic acids and metal-organic dopants for organic electronic applications.”
